Fax: 706-542-8806
E-mail: bbledsoe@uga.edu**

BIOSKETCH

Brian Bledsoe is a professor in the College of Engineering at the University of Georgia with over 25 years of experience as a civil and environmental engineer, hydrologist, and environmental scientist in the private and public sectors. He holds degrees from Georgia Tech, North Carolina State University, and Colorado State University. Before entering the professorate, he worked as a consulting engineer and surveyor, and for the State of North Carolina as a watershed restoration specialist and nonpoint source program coordinator. Brian's research is focused on the interface of engineering, hydrology, and ecology with an emphasis on water quality, stormwater, flood hazards, infrastructure, and restoration of river and wetland ecosystems. He received a National Science Foundation CAREER Award in 2006, and served as a Fulbright Scholar in Chile in 2008. Brian's advisory activities include the Everglades and Louisiana Coastal Area restoration efforts, the Platte River and San Juan River Recovery Implementation Programs, the Environmental Protection Agency Environmental Monitoring and Assessment Program, Engineers Without Borders, and collaborative water planning and management with numerous municipal, industrial, and agricultural partners.

RESEARCH AREAS

- hydrology, hydraulics, and fluvial geomorphology
- water-centered planning for sustainability and resilience
- ecological engineering and ecosystem restoration
- infrastructure and extreme events
- urban streams, stormwater, and floodplains
- highways in river environments
- water quality / quantity interactions and environmental flows

EDUCATION

- Ph.D. Colorado State University, Fort Collins, CO, 1999**
Civil Engineering – Hydraulics and River Mechanics
- M.S. North Carolina State University, Raleigh, NC, 1993**
Forestry – Hydrology and Restoration Ecology
- B.M.E. Georgia Institute of Technology, Atlanta, GA, 1987**
Mechanical Engineering – Fluids and Thermal Systems

REGISTRATION

Professional Civil Engineer: Colorado (#40411), North Carolina (#21050)

HONORS

- 2016, Named UGA Athletic Association Professor in Resilient Infrastructure, College of Engineering, UGA
- 2015, Invited as O. T. Hayward Distinguished Speaker, Baylor University, Waco, TX. Two invited presentations on urban streams and fluvial geomorphology presented April 8-9.
- 2014, Invited keynote address entitled “Resilient and Rambunctious Floodplains” at the 25th Annual Colorado Association of Stormwater and Floodplain Managers (CASFM) Conference, Vail, CO, October 1.
- 2014, Invited keynote entitled “Addressing Key Uncertainties in Stream Restoration Projects” at EcoStream 2014 – Stream Ecology and Restoration Conference, NCSU, Charlotte, NC, November 17-20
- 2013, Invited keynote address to River Restoration Northwest Annual Symposium, Stevenson, WA
- 2013, Faculty Award for Excellence in Teaching, Department of Civil and Environmental Engineering, CSU, Fort Collins, CO
- 2011, Outstanding Faculty Performance Award, Department of Civil and Environmental Engineering, CSU, Fort Collins, CO
- 2009, Outstanding Mid-Career Faculty Member, College of Engineering, CSU, Fort Collins, CO
- 2008, Fulbright Scholar in Chile, Department of State – Fulbright Commission. Fulbright Scholar grant at the Centro EULA de Chile, Universidad de Concepción in Chile
- 2007, Outstanding Faculty Performance Award, Department of Civil and Environmental Engineering, CSU, Fort Collins, CO
- 2007, International Service Award, College of Engineering, CSU, Fort Collins, CO
- 2006, Selected as the Borland Chair of Hydraulics, Department of Civil and Environmental Engineering, CSU, Fort Collins, CO
- 2006, NSF CAREER Award: Stream Restoration, Ecological Engineering, and Nutrient Retention of Streams in Urban and Agricultural Settings, NSF, Washington, DC.
- 2006, Exceptional Achievement in Service and Experiential Learning Award, Engineers Without Borders, College of Engineering, CSU, Fort Collins, CO
- 2003, Outstanding Faculty Performance Award, CSU, Fort Collins, CO

ACADEMIC POSITIONS

2016-present Professor with tenure, UGA Athletic Association Professor in Resilient Infrastructure, College of Engineering, UGA

2013-2015 Professor with tenure, Civil and Environmental Engineering, CSU

2007-2013 Associate Professor with tenure, Civil and Environmental Engineering, CSU

2000-2007 Assistant Professor (tenure-track starting 2002), Civil and Environmental Engineering, CSU

1999-2001	Research Associate, Civil Engineering, CSU
1997-1998	Research Assistant, Civil Engineering, CSU
1991-1993	Graduate Research and Teaching Assistant, Forestry, NCSU
1990	Environmental Engineering Research Technician, Environmental Sciences and Engineering, School of Public Health, University of North Carolina–Chapel Hill

COURSES DEVELOPED AND TAUGHT

- Engineering Systems and Decision Analysis
- Ecological Engineering
- Environmental River Mechanics
- Nonpoint Source Pollution
- Stream Restoration Design

OTHER POSITIONS

Nonpoint Source Program Coordinator – Environmental Engineer II / North Carolina Department of Environment and Natural Resources, Division of Water Quality / Raleigh, NC / January 1996 – August 1997

- Supervised the Nonpoint Source Planning Group in developing and implementing numerous water quality restoration and protection initiatives including Nutrient Sensitive Waters management plans, basin-wide management plans, wetland / stream restoration plans, geographic information system (GIS) based nonpoint source (NPS) modeling, and integrated management of point and diffuse pollution.
- Lead engineer in the development and implementation of best management practices and ecosystem rehabilitation measures designed to improve water quality in NPS impaired waters.
- Presented frequent written and oral reports on water quality issues and the scientific basis of program initiatives to the North Carolina Legislature, Governor's staff, North Carolina Department of Environment and Natural Resources (NCDENR) administration, local governments, and to various agricultural, development, and environmental stakeholders.
- Negotiated with other agencies and interest groups to arrive at engineering and policy decisions which established and prioritized NPS control strategies to protect water quality throughout North Carolina.
- Prepared federal NPS grant applications and administered contractual agreements exceeding \$2,000,000 under §319 of the Clean Water Act.

Environmental Specialist / North Carolina Department of Environment and Natural Resources, Division of Coastal Management / Raleigh, NC / March 1994 – January 1996

- Lead engineer for NCDENR in providing technical guidance to Federal Highway Administration (FHWA) and North Carolina Department of Transportation (NCDOT) in impact avoidance, long-term mitigation planning, and development of mitigation plans and specifications for transportation projects involving impacts to streams and wetlands.

- Developed technical foundation and state / federal agency support for a state-wide stream and wetland restoration program which led to enabling legislation and a \$9,000,000 appropriation from the North Carolina General Assembly.
- Project leader responsible for a regional watershed analysis project involving development and implementation of a GIS combined with hydrologic modeling for targeting watershed rehabilitation strategies to address water quality problems.
- Supervised GIS technicians and field crews in performing GIS analyses, global positioning system (GPS) location surveys, mapping, site assessment, and prioritization of candidate sites for watershed rehabilitation measures.

Graduate Research and Teaching Assistant / North Carolina State University / Department of Forestry Raleigh, NC / January 1991 – July 1993

- Supervised and conducted research on the hydrology, hydraulics, water quality, and ecology of streams and wetlands to determine design criteria for ecosystem restoration projects.
- Developed functional design, performed hydrologic and ecological modeling, and assisted in the construction management of a \$300,000 project to restore and create riverine wetland systems.
- Entirely responsible for teaching an undergraduate course on computer applications in natural resources management.

Environmental Engineering Research Technician / University of North Carolina - Chapel Hill Department of Environmental Sciences and Engineering / January 1990 – December 1990

- Supported air quality research program by performing photochemical pollution experiments, data analysis, maintenance and repair of instrumentation, and structural / electrical renovation of lab.
- Designed and built a computerized data acquisition system for use in air quality research.

Survey Crew Chief / Diamondback Land Surveys / Las Cruces, NM / March 1989 – September 1989

- Supervised survey crews and operated total stations, theodolites, levels, and other survey equipment in the performance of construction and boundary surveys.

Project Engineer / J.P. Bledsoe Company / Dalton, GA / September 1987 – March 1989

- Performed engineering design and construction layout for land development, highway, and bridge projects. Supervised survey crews and operated total stations, theodolites, and levels.

Engineering Intern / Dalton Utilities / Dalton, GA / June 1983 – September 1983

- Performed diverse tasks at municipal water treatment plants including sample collection, assisting plant operators, and plant maintenance.

RESEARCH PROJECTS

Current Research Projects

“Urban Water Innovation Network (U-WIN): Transitioning Toward Sustainable Urban Water Systems,” Co-PI, National Science Foundation – Sustainability Research Network, \$12M

- “Urban Water Innovation Network (U-WIN): Transitioning toward Sustainable Urban Water Systems: Project B2-2b Hydrology and hydraulics of urban floodplains,” PI, National Science Foundation, \$203,226 [this project is part of the U-WIN project listed above]
- “Center for System-Level Optimal Strategies for Nutrient Management (CLEAN),” Co-PI, U.S. Environmental Protection Agency, \$2,291,486
- “Fluvial Instability and Riparian Degradation: Evaluating and Reducing Nutrient Loading from Channel-Riparian Interfaces,” PI, U.S. Environmental Protection Agency, \$208,508 [this project is part of the CLEAN Center project listed above]
- “GRAPE: Modeling of Water Availability in the Southern Company Footprint,” PI, Southern Company Services, \$100,000
- “Community-enabled Lifecycle Analysis of Stormwater Infrastructure Costs (CLASIC) – Review of Objective 4 “Decision Support Tools” by Colorado State University,” PI, U.S. Environmental Protection Agency, \$9,502
- “Support of the 2017 17th Annual Meeting of the American Ecological Engineering Society Meeting,” PI, Oak Ridge Associated Universities, \$4,000

Past Research Projects

- “Technical Support for Development of Numeric Flow Criteria to Support Freshwater Bio-objectives, Hydromodification Management, and Nutrient Numeric Endpoints – SCCWRP,” PI, Southern California Coastal Water Research Project, \$477,867
- “Design Hydrology for Stream Restoration and Channel Stability at Stream Crossings,” PI, National Cooperative Highway Research Program, Transportation Research Board, \$350,000
- “Identification of Outstanding Resource and Impaired Waters in the National Park System,” Co-PI, Department of the Interior – National Park Service, \$179,280
- “Stream Restoration: A Crucial New BMP Database Module,” Co-PI, Water Environment Research Foundation, \$150,000
- “Upper Arkansas River Stream Rehabilitation Habitat Comparison and Vegetation Monitoring,” PI, Colorado Parks and Wildlife, \$121,170
- “Answering Ecological Management Questions for Coastal National Parks Using GIS Tools,” PI, Department of the Interior – National Park Service, \$93,837
- “River Change and Flood Hazards on the Colorado Front Range,” PI, Colorado Water Conservation Board, \$49,853
- “Channel Degradation and Phosphorus in Stream Bank Soil Samples,” PI, Urban Drainage and Flood Control District, \$30,000
- “Stream Power and Geomorphic Change during the 2013 Front Range Floods,” PI, US Forest Service, \$29,087
- “Fixing the Leaks: Uniting Epidemiologists and Environmental Engineers to Investigate and Improve Water Infrastructure and Human Health during Extreme Rainfall and Floods,” Co-PI, Colorado Water Institute, \$25,000
- “Flow, Sediment Transport and Nutrient Flux Monitoring using Seismic and Infrasound Signals,” Co-PI, Colorado Water Institute, \$23,794
- “2D vs. 3D Whitewater Park Analysis,” PI, Colorado Parks and Wildlife, \$29,859
- “Bed Material and Flushing Analysis for the Colorado River in Eagle County, Colorado,” PI, Eagle River Watershed Council, \$8,800
- “Development of Tools for Hydromodification Assessment and Management,” PI, Southern California Coastal Water Research Project, \$449,100

- “Stream Restoration, Ecological Engineering, and Nutrient Retention of Streams in Urban and Agricultural Settings,” PI, National Science Foundation CAREER Award, \$450,000
- “Altered Channel Morphology as a Result of Urbanization and Other Land Uses in Watersheds,” PI, U.S. Environmental Protection Agency, \$186,000
- “An Ecohydrological Approach to Managing Intermittent and Ephemeral Streams on Department of Defense Lands,” PI, U. S. Department of Defense and University of Arizona, \$413,111
- “Hierarchical Physical Classification of Western Streams: Predicting Biological Condition in Terms of Key Environmental Processes Bridging Local to Ecoregional Scales,” PI, U.S. Environmental Protection Agency, \$788,144
- “Linking Watershed Characteristics with Flow Regime and Geomorphic Context to Diagnose Water Quality Impairment at Multiple Spatial and Temporal Scales,” Co-PI, U.S. Environmental Protection Agency, \$897,798
- “Predicting Relative Risk of Establishment and Persistence of Riparian and Aquatic Invasive Species in River Networks,” Co-PI, U. S. Environmental Protection Agency, \$599,748
- “Protocols for Studying Wet Weather Impact Urbanization,” Co-PI, Water Environment Research Foundation, \$299,994
- “Fate and Transport of Metals and Sediment in Surface Water,” Co-PI, U.S. Environmental Protection Agency, \$201,026
- “Evaluation of Enhanced Stream Bank Stabilization for Controlling Nutrient Loads in Watersheds,” Co-PI, U. S. Department of Agriculture, \$337,036
- “Utilizing Bank Stabilization Structures for Controlling Nitrate and Phosphate Contamination of Ground Water and Surface Water Sources,” Co-PI, Colorado Agricultural Experiment Station. \$19,800
- “Demonstration Erosion Control Monitoring,” Co-PI, U. S. Army Corps of Engineers, Waterways Experiment Station, \$304,840
- “Field Characterizations of the Hydraulics of Steep Channels,” Co-PI, National Science Foundation, \$195,251
- “Little Snake River Monitoring,” PI, Three Forks Ranch Corporation, \$165,000
- “Effects of Wet Weather Discharges on the Physical Character of Aquatic Habitat,” Co-PI, Water Environment Research Foundation, \$123,322
- “Inventory and Assessment of the Colorado River Corridor in Eagle County, Colorado,” PI, Eagle River Watershed Council, \$112,700
- “National Riparian Protocol Development,” PI, U. S. Department of Agriculture and U. S. Forest Service, \$145,000
- “Assessing Snow-Making Impacts to Stream Channels,” Co-PI, U.S. Department of Agriculture, Forest Service, \$77,504
- “Stream Geomorphic Assessments and Prioritization of Stream Restoration Projects,” PI, City of Fort Collins, \$64,409
- “Investigation of the Effects of Whitewater Parks on Aquatic Resources in Colorado: Year 3,” PI, Colorado Water Conservation Board, \$71,000
- “National Riparian Protocol Geomorphic Valley Classification Tool Upgrade and NFS Valley Map Product Development,” Co-PI, U.S. Department of Agriculture – U.S. Forest Service – Forest Research, \$24,500
- “National Riparian Protocol Geomorphic Valley Classification Tool Upgrade and Production of Valley Classification Map Data Product for the Western US,” Co-PI, U.S. Department of Agriculture – U.S. Forest Service – Forest Research, \$24,500

- “Biocomplexity – Modeling Urban Aquatic Ecology / Hydrologic / Geomorphologic Relationships on Urbanizing Streams in the West,” Co-PI, National Science Foundation, \$99,633
- “Flushing Flow Quantification – Fraser River, CO,” PI, Colorado Trout Unlimited, \$39,341
- “Investigation of the Effects of Whitewater Parks on Aquatic Resources in Colorado: Year 1,” PI, Colorado Division of Parks and Wildlife, \$49,800
- “Investigation of the Effects of Whitewater Parks on Aquatic Resources in Colorado: Year 2,” PI, Colorado Water Conservation Board, \$46,000
- “Investigation of the Effects of Whitewater Parks on Aquatic Resources in Colorado: Year 3,” PI, Colorado Water Conservation Board, \$43,796
- “Upper Arkansas River NRD – Reddy SWA/Crystal Lakes STL Project Design Collaboration and Quality Assurance Review,” PI, Colorado Department of Natural Resources, \$44,376
- “Developing Flow Recommendations for Turquoise Reservoir and Establishing Riparian Monitoring Points for the Upper Arkansas River,” Co-PI, Colorado Division of Wildlife, \$42,023
- “Eagle River Inventory and Assessment,” PI, Eagle River Watershed Council, \$48,877
- “Upper Arkansas River NRD – Hayden Meadows Project Design Quality Assurance Review,” PI, Colorado Department of Natural Resources, \$39,214
- “GeoTools for Rapid Dynamic Channel Analysis and Biological Assessment,” PI, U.S. Department of the Interior, Bureau of Reclamation, \$35,021
- “Geomorphic Assessment of Fisheries Enhancement Features on the Big Sandy River, Wyoming,” PI, U.S. Department of the Interior, Bureau of Reclamation, \$19,297
- “Cache la Poudre River Post-Fire Sediment and Aquatic Insect Monitoring,” Co-PI, Colorado Division of Parks and Wildlife and City of Fort Collins, \$16,000
- “Mapping Geomorphic Settings in the Colorado River Basin for Environmental Flow Analysis,” PI, CDM Smith, \$12,117
- “Review of Water Management Scenarios for the North Fork Poudre River,” Co-PI, The Nature Conservancy, \$10,000
- “2014CO301B Investigation of the Effects of White Water Kayak Parks on Aquatic Resources in Colorado,” PI, Department of the Interior, U.S. Geological Survey, \$5,000.
- “Vision Paper: River Restoration,” Co-PI, Consortium of Universities for the Advancement of the Hydrologic Sciences, Inc., \$4,820
- “Campbell Valley Monitoring and Restoration Recommendations,” PI, Wildlands Restoration Volunteers, \$2,503

SERVICE AND PROFESSIONAL ACTIVITIES

Academic Activities

- Director of the UGA Institute for Resilient Infrastructure Systems
- UGA College of Engineering Service: Instruction, Administration, and Research; Tenure Review (2016); Chair of GAA Professor Selection Committee (2016); Search Committee Chair for the Founding Chair of the School of Environmental, Civil, Agricultural, and Mechanical Engineering (2016-2017)
- Member of UGA River Basin Center Executive Committee
- CSU Department of Civil and Environmental Engineering Service: Code Committee (2010-2014); Promotion Committee (2013-2014); Chair of Accreditation Committee

(2014); Tenure Committee (2010); Chair of Tenure Committee (2011-2012); Water Faculty Search Committee (2011-2012); Chair of Water Faculty Search Committee (2014); Instructor Search Committee (2014); Borland Endowment Committee (2010); Search Committee (2013)

- Member of more than 160 M.S. and Ph.D. committees since 2000
- Co-Director, Program of Research and Scholarly Excellence (PRSE) – Water Science for Environmental Sustainability, CSU (2012-2015)
- Advising Faculty Member in interdisciplinary graduate degree programs at CSU:
 - Graduate Degree Program in Ecology (GDPE):
 - Executive Committee (2011-2015)
 - Advising Faculty Member (2007-2015)
 - Integrated Water, Atmosphere, Ecosystems, Education and Research (I-WATER) funded by the National Science Foundation Integrative Graduate Education and Research Traineeship (I-GERT) program:
 - Advising Faculty Member (2012-2016)
- Fulbright Committee, Office of International Programs, CSU
- School of Global Environmental Sustainability Curriculum Committee, CSU
- Co-founder and Faculty Advisor of Engineers Without Borders CSU Chapter (2004-2009)

Professional Memberships and Review Service

- Member of the American Society of Civil Engineers
- Member of the American Geophysical Union
- Member of the American Water Resources Association
- Member of the American Society for Engineering Education
- Member of the American Ecological Engineering Society (AEES); elected Vice President of AEES in 2016
- Reviewer of refereed journal submissions for: *Earth-Science Reviews*, *Ecological Engineering*, *Water Resources Research*, *J. Hydraulic Engineering*, *J. Hydrologic Engineering*, *J. American Water Resources Association*, *J. Water Resources Planning and Management*, *Freshwater Biology*, *J. North American Benthological Society*, *J. Environmental Quality*, *J. Hydrology*, *Hydrological Sciences J.*, *Geomorphology*, and John Wiley & Sons
- Reviewer of proposal submissions for: National Science Foundation

Selected Professional Service

- Invited Expert Panelist on “Large-scale Restoration Research Opportunity,” Little St. Simons Island, Saint Simons Island, GA, 29-30 October 2016
- Invited Member of Science Advisory Committee of the San Juan River Basin Recovery Implementation Program (SJRRIP)
 - Invited (by the U. S. Fish and Wildlife Service) participant for the Long-range Plan of SJRRIP (2012)
- Invited Member of Science Advisory Committee of the Platte River Recovery Implementation Program (PRRIP)

- Invited Panelist during the CSU Global Water Research Colloquium “From Conflict to Sustainability: Challenges and Opportunities in an Interdependent World” sponsored by the CSU Vice President for Research, the Office for International Programs, and the CSU Water Center (2012)
- Invited Member of Scientific Advisory Board on Suspended and Bedded Sediments for the U.S. Environmental Protection Agency – Office of Water
- Invited Panelist for Peer-Review of the Environmental Monitoring and Assessment Program (EMAP) Research Strategy for the U.S. Environmental Protection Agency – Office of Research and Development
- Invited Panelist for Peer-Review of Development of National Aquatic Ecosystem Classifications and Reference Conditions – 2001 Science to Achieve Results (STAR) Program – U.S. Environmental Protection Agency
- Invited expert Panelist on the future of the Cache la Poudre River for the City of Fort Collins, CO, Draft Environmental Impact Statement (DEIS) for the Northern Integrated Supply Project (NISP) (2007-2008).

Volunteer Service

- Volunteer Mentor for Students as Leaders in Engineering and the Women and Minorities in Engineering Program at Colorado State University
- Volunteer Project Mentor for Senior Design Groups in Civil Engineering
- Volunteer for the Colorado Alliance of Minority Participation
- Volunteer for the Native American Student Services Summer Youth Experience
- Volunteer Scientist for The Nature Conservancy and Eagle River Watershed Council
- Volunteer Scientist for the Wildland Restoration Volunteers, a non-profit organization that provides an opportunity for people to come together, learn about their natural environment, and take direct action to restore and care for the land (2012-present)
- Volunteer Scientist for the City of Fort Collins (with entire storm-water management team) to discuss long-term vision for stream restoration in the City (2012)
- Volunteer Scientist for the future of the “Poudre River – A Poudre Runs Through It” program (to professionals, politicians, and interested stakeholders) organized by the Water Center.

GRADUATE STUDENT ADVISING

Committee Chair / Advisor:

Ph.D.

Stephen Adams (in progress, GRA)

Daniel Baker (completed, GRA and Post-doc)

Christopher Cuhacian (completed, GRA and Post-doc)

David Dust (completed)

Rod Lammers (in progress, I-WATER, NSF IGERT Program, GRA)

Robert Hawley (completed, GRA)

Jennifer Mueller Price (completed, GRA)

David Raff (Post-doc)

Joel Sholtes (completed, I-WATER, NSF IGERT Program, GRA)

Tim Stephens (in progress, GRA)
Steven Yochum (completed, GRA)

M.S.

Stephen Adams (completed, GRA)
Russ Anderson (completed, GRA)
Amer Battikhi (completed)
Michael Brown (completed, GRA)
Andrew Bryden (completed)
Shaun Carney (completed, GRA)
Erick Carlson (completed GDPE, GRA)
Sarah Eberhart (completed, GRA)
Andrea Fasen (completed)
Alejandro Flores (completed, GRA)
Brian Fox (completed, GRA)
Kyle Hardie (completed, GRA)
David Henry (in progress, GRA)
Elaina Holburn (completed, GRA)
Blair Hurst (completed, GRA)
Nell Kolden (completed, GRA)
Peter Kulchawik (completed, GRA)
Rod Lammers (completed, GRA)
Brian McCaig (completed)

Jonathan McIntosh (completed, GRA)
John Meyer (completed, GRA)
Sam Michels-Boyce (completed, GRA)
Gabriel Miller (completed, GRA)
Radley Ott (completed)
Nicole Peterson (in progress, GRA)
Kevin Pilgrim (completed)
David Pizzi (completed, GRA)
Michael Rafferty (completed)
Tyler Rosburg (completed, GRA)
Erin Ryan (completed, GTA)
Steve Sanborn (completed, GRA)
Joshua Smalley (completed)
Ben Snyder (completed)
Tim Stephens (completed, GRA)
Travis Stroth (completed, GRA)
Christy Wilson (completed)
Dan Woolley (completed)

Graduate Committee Service – member of more than 160 M.S. and Ph.D. committees since 2000.

1. Lammers, R.W., and B.P. Bledsoe. 2016. Modifying Bagnold’s sediment transport equation for use in watershed-scale channel incision models. Abstract EP53C-0983, 49th Annual Fall Meeting of the American Geophysical Union, San Francisco, CA, 12-16 December.

2. Hardee, T., P.A. Nelson, M. Kondratieff, and B. P. Bledsoe. 2016. Evaluation of fish passage at whitewater parks using 2D and 3D hydraulic modeling. Abstract EP53D-1001, 49th Annual Fall Meeting of the American Geophysical Union, San Francisco, CA, 12-16 December.
3. Stephens, T.A., and B.P. Bledsoe. 2016. A probabilistic floodplain mapping framework for increased resilience under non-stationarity. Poster, 2016 Sustainability Science Summit, University of Georgia (UGA), Center for Integrative Conservation Research (CICR), Athens, GA, December 6.
4. Stephens, T.A., and B. Bledsoe. 2016. An assessment framework for increased resilience to urban flooding under non-stationarity. Abstract, 2016 Sustainability Science Summit, University of Georgia (UGA), Center for Integrative Conservation Research (CICR), Athens, GA, December 6.
5. Lammers, R., B.P. Bledsoe, and D. Baker. 2016. Big Dry Creek case study: CLEAN Center Research Project 4: fluvial instability and riparian degradation. PowerPoint Presentation, 2016 Big Dry Creek Watershed Update (J. Clary): What's New with Your Neighbor? – South Platte Cooperative for Urban River Evaluation (SP CURE), October 25.
6. Mazor, R., J. May, A. Sengupta, K. McCune, B. Bledsoe, and E. Stein. 2016. Setting regional targets based on flow-ecology relationships to support biological integrity. Presentation, California Aquatic Bioassessment Workgroup (CABW) Meeting, Davis, CA, October 18-19.
7. Bledsoe, B., J. Jones, E. Strecker, S. Struck, M. Leisenring, J. Clary, R. Lammers, and A. McGuire. 2016. Development of a stream restoration practices database: initial progress. Presentation, 89th Annual Water Environment Federation Technical Exhibition and Conference (WEFTEC), New Orleans, LA, September 24-28.
8. Stein, E.D., R. Mazor, A. Sengupta, B. Bledsoe, S. Adams, J. May, L. Brown, D. Carlisle, and C. Konrad. 2016. Setting instream flow targets in California using biological community health indices. Presentation, California Stormwater Quality Association (CASQA) 12th Annual Conference, San Diego, CA, September 12-14.
9. Bledsoe, B. 2016. Project B2-2b: hydrology and hydraulics of urban floodplains. Presentation, Urban Water Innovation Network (UWIN) Research Team Annual Meeting: “Understanding our Common Framework and Desired Contributions to the Urban Water Blueprint,” Fort Collins, CO, August 3-5.
10. Lammers, R.W., and B.P. Bledsoe. 2016. Can stream restoration remedy the nutrient pollution problem? Presentation, 16th Annual American Ecological Engineering Society (AEES) Conference: “Rooftops to Rivers: Integrating Built and Natural Systems,” Knoxville, TN, June 7-9.
11. Stephens, T., B. Fox, N. Kolden, and B. Bledsoe. 2016. Investigation of the effects of whitewater parks on aquatic resources: a spatially explicit hydraulic analysis. Abstract, 16th Annual American Ecological Engineering Society (AEES) Conference: “Rooftops to Rivers: Integrating Built and Natural Systems,” Knoxville, TN, June 7-9.

12. Stephens, T.A., B.P. Bledsoe, B.D. Fox, and E. Kolden. 2016. Investigation of the effects of whitewater parks on aquatic resources: a spatially explicit hydraulic analysis. Poster, 16th Annual American Ecological Engineering Society (AEES) Conference: “Rooftops to Rivers: Integrating Built and Natural Systems,” Knoxville, TN, June 7-9.
13. Adams, S.K., P. Turk, and B.P. Bledsoe. 2016. Forecasting stream flow with cluster analysis. Poster, Celebrate Undergraduate Research and Creativity (CURC) Showcase, Colorado State University, Fort Collins, CO, April 18.
14. Lammers, R.W., and B.P. Bledsoe. 2016. Can stream restoration remedy the nutrient pollution problem? Abstract, American Geophysical Union (AGU) Hydrology Days 2016, Colorado State University, Fort Collins, CO, March 21-23.
15. Stroth, T.R., and B.P. Bledsoe. 2016. Stable channel design tool using the Capacity/Supply Ratio (CSR). Abstract, American Geophysical Union (AGU) Hydrology Days 2016, Colorado State University, Fort Collins, CO, March 21-23.
16. Lammers, R.W., and B.P. Bledsoe. 2015. Uncertainty and sensitivity in bank stability modeling: implications for estimating phosphorus loading. Abstract, American Geophysical Union (AGU) Hydrology Days 2015, Colorado State University, Fort Collins, CO, March 23-25.
17. Rosburg, T., P.A. Nelson, and B.P. Bledsoe. 2015. The effect of urbanization on flow duration curves: a case study from selected streams in the Puget Sound Basin, Western Washington. Abstract, American Geophysical Union (AGU) Hydrology Days 2015, Colorado State University, Fort Collins, CO, March 23-25.
18. Adams, S.K., and B.P. Bledsoe. 2015. The influence of different calibration criteria on a rainfall-runoff model’s ability to predict biologically important flow metrics when transferred to ungaged basins. Abstract, American Geophysical Union (AGU) Hydrology Days 2015, Colorado State University, Fort Collins, CO, March 23-25.
19. Sholtes, J.S., and B.P. Bledsoe. 2015. Magnitude and frequency of sediment transport in alluvial channels. Abstract, American Geophysical Union (AGU) Hydrology Days 2015, Colorado State University, Fort Collins, CO, March 23-25.
20. Ryan, E.R., T.A. Stephens, and B.P. Bledsoe. 2015. An evaluation of 2-D vs. 3-D hydraulic analyses investigating the effects of whitewater parks on fish passage. Abstract, American Geophysical Union (AGU) Hydrology Days 2015, Colorado State University, Fort Collins, CO, March 23-25.
21. Sholtes, J., and B. Bledsoe. 2014. On the magnitude and frequency of sediment transport in alluvial channels. Poster, EP33A-3613, American Geophysical Union Fall Meeting, San Francisco, CA, December 15-19.
22. Stephens, T., B. Fox, N. Kolden, and B.P. Bledsoe. 2014. Spatially explicit hydraulic analysis of the effects of whitewater parks on fish passage. Abstract, International Conference on Engineering and Ecohydrology for Fish Passage, University of Wisconsin, Madison, WI, June 9-11.
23. Eberhart, S.R., and B.P. Bledsoe. 2014. Developing flow-ecology relationships in southern California. Poster, 2014 Joint Aquatic Sciences Meeting “Bridging Genes to Ecosystems: Aquatic Science at a Time of Rapid Change,” Portland, OR, May 18-23.

24. Eberhart, S.R., and B.P. Bledsoe. 2014. Developing flow-ecology relationships in southern California. Abstract, *Proceedings of the 34th Annual American Geophysical Union Hydrology Days* (J.A. Ramirez, Ed.), Colorado State University, Fort Collins, CO, March 24-26.

Selected Presentations

1. Presented “Land, Water and Ecosystem Services in Georgia” at the Carl Vinson Institute of Government Environmental Policy Academy for State of GA Legislators, University of Georgia (UGA), Athens, GA, December 3, 2016.
2. Presented “Water Infrastructure and Public Health” at the College of Public Health (CPH) Seminar, University of Georgia (UGA), Athens, GA, August 26, 2016.
3. Presented “Bledsoe Research Overview” at the River Georgia Sea Grant, University of Georgia (UGA), Athens, GA, March 4, 2016.

4. Presented “Bledsoe Research Overview” at the River Skidaway Institute of Oceanography, Department of Marine Sciences, University of Georgia (UGA), Athens, GA, March 3, 2016.
5. Presented “Bledsoe Research Overview” at the River Basin Center (RBC) Wednesday Symposium, University of Georgia (UGA), Athens, GA, February 17, 2016.
6. Invited as O. T. Hayward Distinguished Speaker, Baylor University, Waco, TX. Two invited presentations planned on urban streams and fluvial geomorphology, to be presented on April 8 and 9, 2015.
7. Delivered keynote address entitled “Addressing Key Uncertainties in Stream Restoration Projects” at EcoStream 2014 – Stream Ecology and Restoration Conference, North Carolina State University, Charlotte, NC, November 17-20, 2014. Presented ideas for restoring bio-geochemical function in stream restoration projects.
8. Taught (with Dr. E. Wohl) 3-day short course co-hosted by the Colorado Riparian Association (CRA) and Colorado Association of Stormwater and Floodplain Managers (CASFM) “Applied Fluvial Geomorphology for an Urbanizing World,” Sylvan Dale Guest Ranch, Loveland, CO, November 13-15, 2014. The course focused on applying the concepts and principles of fluvial geomorphology to develop an understanding of approaches and methods for using geomorphology in stream restoration.
9. Invited presentation for the “Poudre River – A Poudre Runs Through It” program organized by the Water Center at Colorado State University, October 21, 2014.
10. Delivered keynote address entitled “Resilient and Rambunctious Floodplains” at the 25th Annual Colorado Association of Stormwater and Floodplain Managers (CASFM) Conference “25 Years Managing the Elements,” Vail, CO, October 1, 2014.
11. Presentation at the Colorado Basin Roundtable meeting, Glenwood Springs, CO, July 28, 2014.
12. Presentation at the 14th American Ecological Engineering Society Meeting “Designing for Resilience in a Changing World,” Charleston, SC, June 9-11, 2014.
13. Keynote speaker at the Colorado Association of Stormwater & Floodplain Manager (CASFM), Loveland, CO, May 8, 2014. Discussed flooding, adaptive management, and development of a new CASFM course that focuses on ecology and biology in stream restoration.
14. Presented at co-sponsored CSU River Retreat at Tamasag Retreat Center, Bellevue, CO, February 22, 2014.
15. Presentation on flood risks in Fountain Creek during a public meeting, Manitou Springs, CO, January 8, 2014.
16. Presentation (co-authors B. Fox, M. Kondratieff, and C. Myrick) entitled “Eco-Hydraulic Evaluation of Whitewater Parks as Fish Passage Barriers” at the International Conference on Engineering and Ecohydrology for Fish Passage, Oregon State University, Corvallis, OR, June 25-27, 2013.

17. Presented “Let’s Be Honest: Addressing Key Uncertainties in Stream Restoration Design and Decision-making” at the 2013 American Geophysical Union Hydrology Days, Colorado State University, Fort Collins, CO, March 25-27, 2013.
18. Presentation (co-authors K. Werbylo and J. Sholtes) entitled “A Consideration of Channel Morphology, Flow Regime Variability and Sediment Transport Relations in Determining Effective Discharge” at the 2013 American Geophysical Union Hydrology Days, Colorado State University, Fort Collins, CO, March 25-27, 2013.
19. Delivered keynote address entitled “Let’s Be Honest: Addressing Uncertainty in River Restoration and Decision-making” at the River Restoration Northwest (RRNW) Annual Symposium, Stevenson, WA, February 4-6, 2013.
20. Invited presentation to agency personnel from the Eagle River Watershed Council, Eagle, CO, November 7, 2012.
21. Invited presentation at the 7th Annual Sustaining Colorado Watersheds Conference – “Water 2012.” The Sustaining Colorado Watersheds Conference is a cooperative event that is presented by The Colorado Watershed Assembly, The Colorado Riparian Association, and the Colorado Foundation for Water Education, Avon, CO, October 10, 2012.
22. Invited (by the U. S. Fish and Wildlife Service) participant presentation for the Long-range Plan of San Juan River Basin Recovery Implementation Program (SJRRIP), Albuquerque, NM, January 10-12, 2012.
23. Invited to present “Effects of Bank Vegetation on Stream Processes: Field Data, CFD Modeling and Restoration Design” at the 6th Annual Sustaining Colorado Watersheds Conference, Colorado Watershed Assembly, Avon, CO, October 5, 2011.
24. Invited panelist for the CSU – School of Global Environmental Sustainability Panel – Expert Panel on extreme events, Fort Collins, CO, November 17, 2010.
25. Invited to present at the “Sediment Supply and the Upland Stream Connection” during the Episodic Streams: Imperatives for Assessment and Environmental Planning in California Workshop sponsored by the Southern California Coastal Water Research Project (SCCWRP), Santa Ana, CA, November 7-9, 2010.
26. Invited to present at the U.S. Environmental Protection Agency “Healthy Watersheds Integrated Assessments Workshop,” Estes Park, CO, November 3, 2010.
27. Invited lecturer and panelist at the “Sustaining Colorado Watersheds 2010: Learning from the Past to Protect the Future” conference, Vail, CO, October 5-6, 2010.
28. Presented invited paper entitled Model and Translating Models to Management Tools at the Hydromodification: Latest Advances and Pending Challenges Workshop. Workshop was held during the 2009 California Stormwater Quality Association (CASQA) Conference, San Diego, CA, November 1-3, 2009.
29. Taught courses, developed academic curricula, advised students, conducted research, and lectured at the Centro EULA de Chile, Universidad de Concepción in Chile in fulfillment of the Fulbright Scholar Grant, February - June 2008.

30. Presented invited presentation on Environmental Flows (Non-consumptive Needs Assessments), during the Colorado Basin Roundtables in Glenwood Springs, Colorado, on December 17, 2007.
31. Presented invited paper entitled Regional Variability of Stream Responses to Urbanization: Implications for Risk-based Assessments, at the American Geophysical Union (AGU) Fall Meeting, San Francisco, California, December 12-14, 2007.
32. David, G.C., B.P. Bledsoe, D.M. Merritt, and E. Wohl. 2007. Poster: Effects of Snow-making, Grading, and Timber Harvest on Stream Channel Morphology in the White River National Forest, Colorado. Boulder Climate Workshop, Boulder, CO.
33. Mueller Price, J., D.W. Baker, and B.P. Bledsoe. 2007. Reconsidering Nitrate Uptake Experiments in Streams. 24th Annual American Geophysical Union Hydrology Days, Colorado State University, Fort Collins, CO.
34. Baker, D.W., J. Mueller Price, and B.P. Bledsoe. 2007. The Influence of Stream Geomorphic Complexity on Hyporheic Flow Processes. 24th Annual American Geophysical Union Hydrology Days, Colorado State University, Fort Collins, CO.
35. Baker, D.W., B.P. Bledsoe, C.M. Albano, and N.L. Poff. 2007. Ecohydraulic Effects of Flow Extraction in Rocky Mountain Streams. Poster, North American Benthological Society, 55th Annual Meeting, June 3-8, Columbia, SC.
36. Apse, C., A.H. Arthington, B.P. Bledsoe, S.E. Bunn, D. Merritt, R.J. Naiman, N.L. Poff, B. Richter, K.H. Rogers, R. Tharme, and A.T. Warner. 2007. Ecological Limits of Hydrologic Alteration: An Approach for Setting Regional Environmental Flow Standards. Special Session, North American Benthological Society, 55th Annual Meeting, June 3-8, Columbia, SC.
37. Mueller Price, J., D.W. Baker, and B.P. Bledsoe. 2007. Variability in Nitrate Uptake and Geomorphic Complexity in Two Segments of an Urban Stream. Poster, North American Benthological Society, 55th Annual Meeting, June 3-8, Columbia, SC.
38. Pyne, M.I., N.L. Poff, B.P. Bledsoe, and A.T. Herlihy. 2007. Traits Versus Taxonomy: Community Composition along Environmental Gradients in Streams. Poster, North American Benthological Society, 55th Annual Meeting, June 3-8, Columbia, SC.
39. Bledsoe, B.P. 2006. Invited Keynote Speaker: Innovations in Urban Development. Invited Keynote Speaker at the Cochrane Low Impact Development Conference, sponsored by the Cochrane Environmental Action Committee (CEAC), Cochrane, Alberta, Canada, October 18-20.
40. Invited Panelist / Speaker at The Nature Conservancy's International Environmental Flows Workshop in Half Moon Bay, CA, August 6-9, 2006.
41. Invited Speaker at the NSF-funded Wingspread Workshop on Urban Water: Cities of the Future: Creating Blue Water in Green Cities, in Racine, WI, July 12-14, 2006.
42. Bledsoe, B.P. 2005. Risk-Based Channel Stability Analysis for Urbanizing Watersheds. Invited Presentation to the California Stormwater Quality Association 2005 Conference, Ontario, CA, October 3-5.

43. Bledsoe, B.P. and N.L. Poff. 2005. Hydrogeomorphic Classification and Functional Composition of Benthic Communities in the Pacific Northwest Mountains. Joint Assembly of the American Geophysical Union and North American Benthological Society, New Orleans, LA, May 23-27.
44. Cuhaciyan, C.O., B.P. Bledsoe, J.D. Olden, and N.L. Poff. 2005. Hydrogeomorphic Classification of Benthic Macroinvertebrate Assemblages in the Pacific Northwest Mountains. Joint Assembly of the American Geophysical Union and North American Benthological Society, New Orleans, LA, May 23-27.
45. Holburn, E.R., C.O. Cuhaciyan, B.P. Bledsoe, and N.L. Poff. 2005. Explanatory Power of Multi-scale Physical Descriptors in Modeling Benthic Indices Across Nested Ecoregions of the Pacific Northwest. Joint Assembly of the American Geophysical Union and North American Benthological Society, New Orleans, LA, May 23-27.
46. Hurst, B.E., B.P. Bledsoe, C.M. Albano, and N.L. Poff. 2005. Conditional Probability Approach for Assessing Fine Sediment Impacts on Aquatic Insects. Joint Assembly of the American Geophysical Union and North American Benthological Society, New Orleans, LA, May 23-27.
47. Albano, C.M., B. E. Hurst, N.L. Poff, and B.P. Bledsoe. 2005. The independent and interactive effects of reduced streamflow and fine sediment deposition on macroinvertebrate community structure and function. Joint Assembly of the American Geophysical Union and North American Benthological Society, New Orleans, LA, May 23-27.
48. Olson, K.D., B.P. Bledsoe, and C.O. Cuhaciyan. 2005. An Adaptive GIS Algorithm for Neighborhood Analysis of Hydrologic Networks, presented at the 18th annual GIS in the Rockies Conference, Denver, Colorado. Poster Award, 1st Place.
49. Meyer, J. and B.P. Bledsoe. 2005. A River Restoration Case Study: Three Forks of the Little Snake River, Colorado. 25th Annual American Geophysical Union Hydrology Days, Colorado State University, Fort Collins, CO.
50. Olson, K.D., C.O. Cuhaciyan, and B.P. Bledsoe. 2005. Mapping Stream Habitat Heterogeneity Using a Flexible Neighborhood Analysis Algorithm. 25th Annual American Geophysical Union Hydrology Days, Colorado State University, Fort Collins, CO.
